SUMMARY

I am an active 7th semester student majoring in Informatics, known for my honesty, responsibility, diligence, discipline, and patience. I excel in teamwork and possess strong skills in Python programming and SQL. Additionally, I have expertise in creating UI/UX designs and am proficient in using photo and video editing software, including Canva, Figma, Capcut, Adobe Illustrator, and Ibis Paint. My diverse skill set and strong personal attributes make me a valuable team member and a dedicated professional.

WORK EXPERIENCE

July 2023 - Present

- Collecting and analyzing user data to understand their needs and behaviors.
- Creating the visual appearance of the product, including colors, typography, and layout.
- Designing user flows and conducting testing to ensure the product is easy and enjoyable to use.

PROJECT EXPERIENCE

- Developed the UI/UX design for the UTY Creative Hub application.
- Created the UI/UX design for the PKM-KC application, SINDIKAT : Sistem Multi Device Pendeteksi Tindakan Kriminal Menggunakan Deep Learning.
